- ❖ We need to study etymology (origin) of words, colloquial (बोली भाषा) and jargons of the language. So we resolve to acquire all these nuances.
- ❖ We need treasure of vocabulary to comprehend (आकलन) the subject. So we swear to imbibe maximum words.
- ❖ To have heart to heart talk we must have avidity and proficiency (प्रभुत्व) over the language. It should be grammatically flawless, lucid (ओघवती) with precise (नेमके) words and concise syntax. (छोटी वाक्यरचना) Hence we promise that we will try to learn all these important aspects.
- ❖ In order to acquire all these traits we need to talk and converse in English at least in school Zone. So today we give a very strong commitment that we will follow it.
- ❖ We may go beating around the bush at the outset but soon we will be able to convey our thoughts in simple, lucid language with decent, distinct twists. So, we resolve with solidarity that we shall acquire a flawless language even if we have to toil hard.
- ❖ All our teachers and our school authorities were constantly striving hard to tell us, but we simply ignored, because we did not understand the seriousness of the precepts. (नियम) So, now onwards, we enunciate that we will maintain the English speaking decorum of our school.
- ❖ To learn a language at par with our mother tongue and acquire competence is such a difficult task for which we have to toil & be vigilant, was never recognized by us. But here onwards we promise by Oath that we will abide by it and explore all the paraphernalia (tools) of the language.
